OZAPAY : Project presentation

OZAPAY – The Super Payment App aims to facilitate monetary transactions and commercial exchanges anywhere in the world, in any currency, as well as in cryptocurrency.

As part of its development strategy, OZAPAY aims to offer a multiservice mobile payment solution that meets the main needs of consumers and professionals, including :

A multi-currency/crypto IBAN account + credit card within a payment app that makes it easy to collect and transact anywhere, as well as invest!

An Explorer to promote and take advantage of the community's great deals online, in stores and in the great outdoors!

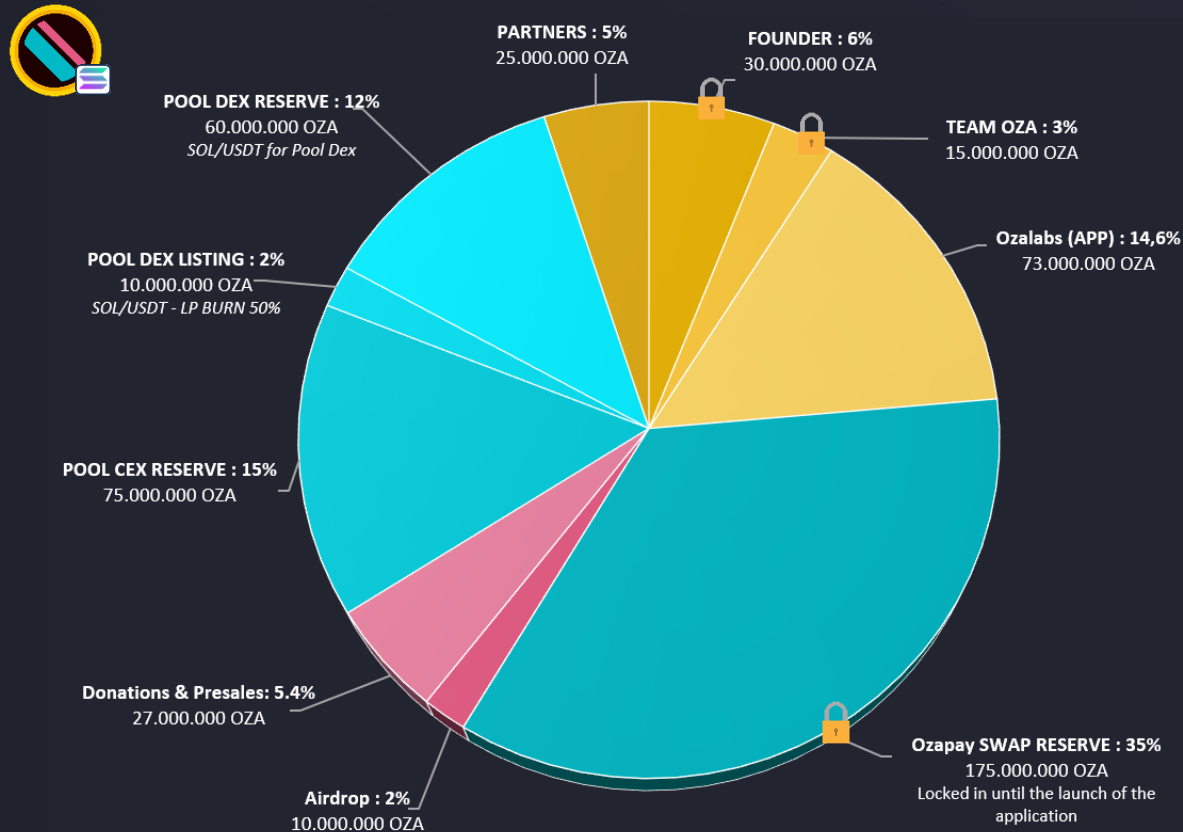

A Community including a News Feed and Messaging!

Introducing our token OZACOIN (OZA)

Our **OZACOIN (OZA)** utility token is designed to facilitate transactions, top-ups, exchanges and withdrawals in all currencies via our future OZAPAY payment application.

To achieve this, our OZA token uses blockchain technology called SOLANA (SPL token). The user is the sole master of his wallet, and all transactions are carried out ONCHAIN.

Parameters

How the OZAPAY account works

Regulated and supervised by LINKCY (EMI/PSAN), each OZAPAY member can take advantage of a MULTIDEVISE/CRYPTO account at any time, rechargeable either by credit card via the "BANXA" gateway, or in cryptocurrency via the "Coinpayments" service provider.

EMI regulation: LinkCy SAS, Paynovate agent (Belgian EMI), registered in France under the identifier 852295732.

PSAN regulation: LinkCy SAS, PSAN agent, registered in France under identifier E2023-73 (AMF).

 **CoinPayments**

How OZA exchanges work

OZA tokens will soon be available from the PREMIUM offer on the OZAPAY application, and will be accessible from the applications and exchanges selected by our company. Their purpose is to be able to be exchanged for current currency at any time.

Lucky owners of OZA on the BINANCE SMARTCHAIN network are invited to migrate their OZA tokens to the SOLANA network via the dedicated space : <https://migration.ozapay.fr>

You can also open and manage your OZA wallets via :

Phantom

Token Pocket

Math Wallet

Trust Wallet

Launch strategy and cash flow

	6.000 users	18.000 Users	54.000 users	164.000 users

Distribution

30% Retail

70% Consumers

Legal Extract, Values and Beliefs

Extract from a legal memorandum by Maître POUGET:

"... OZAPAY is governed by PSAN and EMI regulations. This provision is made directly by LINKCY for the PSAN part in its capacity as a PSAN registered with the AMF. LINKCY is the white-label agent for PAYNOVATE, a Belgian electronic money institution authorized to provide payment and electronic money services, notably in France.

Values and beliefs

Committed to freedom, OZAPAY wants to enable everyone to have a multi-currency account including an OZA portfolio under self-holding, alongside more exclusive digital services.

Whether you're an individual or a professional, take advantage of a **super multiservice payment app** that rewards your payments and your loyalty in the form of cashback.

With **OZAPAY** : Pay, Enjoy, Earn !

Our good deeds for the planet

OZAPAY ultimate goal is to meet the challenges facing our planet by providing a revolutionary payment solution that facilitates local commerce on a global scale!

Promote local economies and commercial exchanges everywhere, online and locally!

Reduce greenhouse gases through our commercial ecosystem of short circuits!

Fight inflation and food waste with our exceptional cashback offers (activities, bars & restaurants...)

Ozapay SAS and key figures

OZAPAY SAS is a simplified joint stock company registered in the Paris Trade Register under SIREN 983 874 884.

OZAPAY SAS is therefore the guarantor of OZAPAY applications and the OZA brand.
